

Introducing our new 2015 CIMA syllabus

CIMA

CIMA 2015 syllabus

CIMA is changing, therefore we're introducing an updated CIMA syllabus to ensure that InterActive still provides you with an effective way to reach exam success.

Our 2015 CIMA tuition packages will give you access to expert tutors who know the new CIMA syllabus inside out, providing you with all the tools you will need to advance your career in management accounting.

How will InterActive's 2015 CIMA programme change?

Here is an overview of the main changes to our CIMA programme:

- ▶ There will now be three case study exams; operational, managerial and strategic.
- ▶ You can only sit a case study once you have passed the respective three feeder papers; i.e., the Managerial case study can be sat once you have passed E2, F2 and P2; or the Strategic case study after passing E3, F3 and P3, etc.
- ▶ The case studies can be sat three times a year over a three week period.
- ▶ Papers E, F, and P can be sat at any time, and will be 90 minute exams with a pass mark of 70%. You will receive your results for these exams immediately.
- ▶ You must have completed the relevant case study before progressing to the next level.
- ▶ Level T4 no longer exists.

What impact this will have on CIMA students?

The new CIMA syllabus will make your studies even more enjoyable, and you will find that your studies provide you with both the latest management accounting knowledge and highly sought-after professional competencies.

How will you benefit from the changes?

The updated 2015 syllabus has been revised to make CIMA even more geared towards delivering the skills you will need in the workplace, focused on meeting the employability needs of employers and professionals alike.

The CIMA qualification

The Chartered Institute of Management Accountants (CIMA) qualification gives you a solid foundation in finance and accounting, and is held in esteem by the world's foremost employers and organisations. You will learn the skills that are needed to drive thriving businesses towards even greater success.

Studying CIMA via InterActive provides you with the opportunity to gain this globally recognised designation with complete online flexibility, which means you can fit your studies around your lifestyle, not vice versa.

To gain the full CIMA qualification, you must complete four separate levels by sitting the relevant Integrated Case Study (ICS). These assignments consolidate your skills and knowledge at the end of each CIMA level, and give you a better sense of how your CIMA studies relate to professional practice.

Registering as a CIMA student

Enrolment as an InterActive student does not automatically register you with CIMA. All students who wish to sit CIMA examinations must register with CIMA separately.

Exemptions

You can expect to receive exemptions if you have a relevant degree or a relevant professional qualification. CIMA decides if previous study is relevant and they award some exemptions for some papers at Certificate, Operational and Management level. There are no exemptions given at Strategic level.

InterActive advise you to check your starting point with CIMA before you enrol on the course. (www.cimaglobal.com/exemptions)

Entry requirements

The CIMA offers various entry points on to the CIMA Qualification, depending on age and previous academic qualifications. We recommend that students have a good proficiency in English.

Minimum requirements

- ▶ Students must be at least 18 years old
- ▶ Two A Levels and three GCSEs or equivalent in five separate subjects, including English and Mathematics
- ▶ Information on the minimum entrance criteria for each country is available from the CIMA website www.cimaglobal.com

Practical experience

To become CIMA qualified, students need to satisfy the practical experience requirements (PER). This means providing evidence of a minimum of 3 years supervised and relevant work experience, which must be completed within 5 years of passing their last exam.

You will benefit from the expertise of a specialist on-campus Careers Advisor, trained to provide advice on the specific issues that you may encounter in your job search.

Our careers team will work with you to identify work placement opportunities, delivering the practical skills and experience essential to become a CIMA affiliate.
